### **Reason for Allowance**

1. The following is an examiner's statement of reasons for allowance:

None of the prior arts of record teaches or fairly suggests all of the limitation recited in the claims, specifically the method for identifying a change in a public address for a client on a private network, wherein receiving a message over the private network from the public network via the address translation device, the message having the public address of the client as provided by the address translation device.

In a telephonic interview with the Applicant, it was also made cleared that the client was receiving the message since the claim recites "receiving over the private network from the public network from the public network via the address translation device". Thus merging a client with a network translation device removes the private network from the client because if the address translation device is the client, the address translation device does not receive over the private network. Applicant states there has to be a second element, distinct from the address translation device that is receiving the public address.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Joshua Joo whose telephone number is 571 272-3966. The examiner can normally be reached on Monday to Thursday 8AM to 5PM and every other Friday.
